

# CCBHC Grant Update

In September 2022, Lapeer County Community Mental Health (LCCMH) was awarded a four-year Certified Community Behavioral Health Clinic (CCBHC) Planning, Development, and Implementation Grant through the Substance Abuse and Mental Health Services Administration (SAMHSA). The purpose of a CCBHC is to ensure access to coordinated, comprehensive behavioral health care by prioritizing evidence-based services, quick access to treatment, and care coordination of behavioral health care, physical health care, social services, and other community resources.

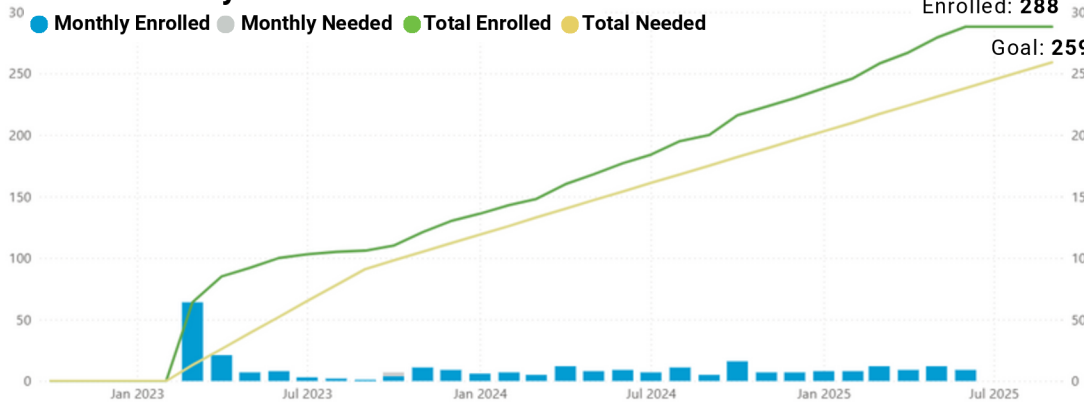

## Grant Enrollment

*LCCMH has exceeded the year three grant enrollment goal!*

### Grant Cycle

### Enrollment by Month

### Year 3 Enrollment

## PROGRAM SPOTLIGHT Clinical Quality Measures

CCBHCs are required to report on a series of clinical quality measures (CQMs) that reflect performance in key areas of integrated care. CQMs serve as standards for evaluating how well providers deliver care to individuals and populations.

### Planning Stage

Define CQM focus and prepare to collect data

### Integration Stage

Refine the process and scale or adapt as needed

### Execution Stage

Collect CQMs and begin analyzing initial data

### Evaluation Stage

Assess performance and identify what's working

# Outcomes and Performance

As part of the CCBHC grant, LCCMH is tracking performance on several SAMHSA-required measures, including:

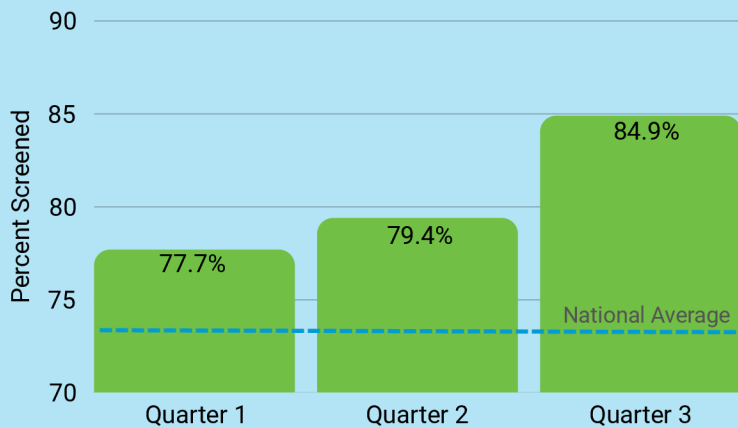

- Clinical Quality Measures
- Program Goals and Objectives
- National Outcome Measures (NOMs)
- Key Program Initiatives

This quarter, we are highlighting Clinical Quality Measure (CQM) performance.

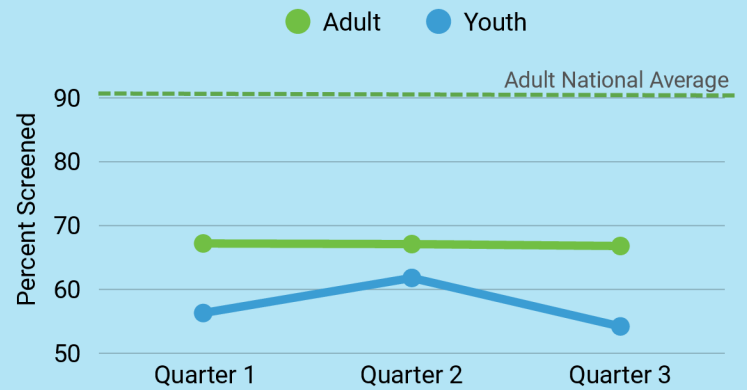

## Clinical Quality Measure Performance

CQMs are reported to Region 10 on a quarterly basis. FY25 performance to date is captured below.

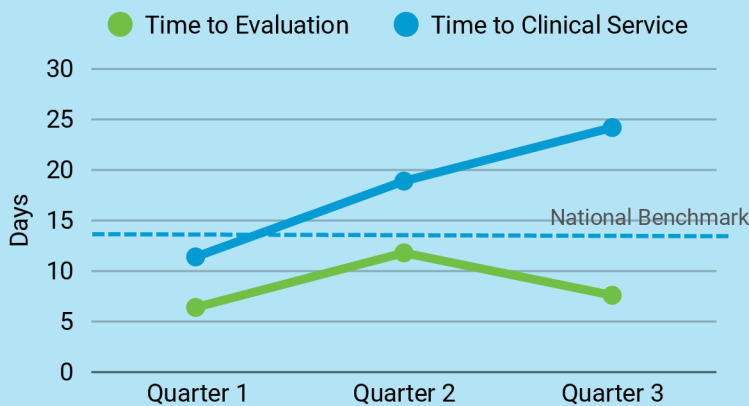

### Unhealthy Alcohol Use Screening

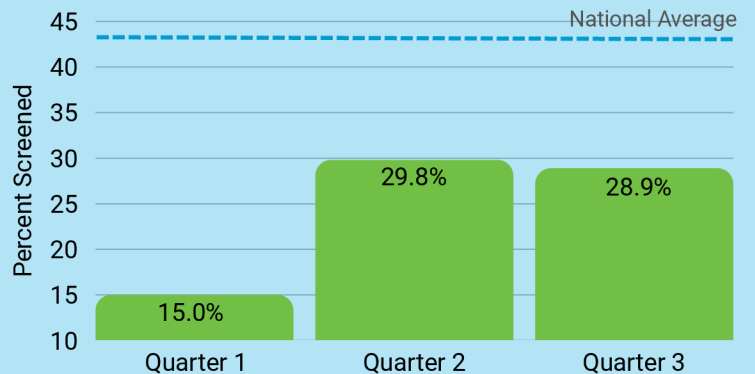

### Screening for Depression and Follow-Up Plan

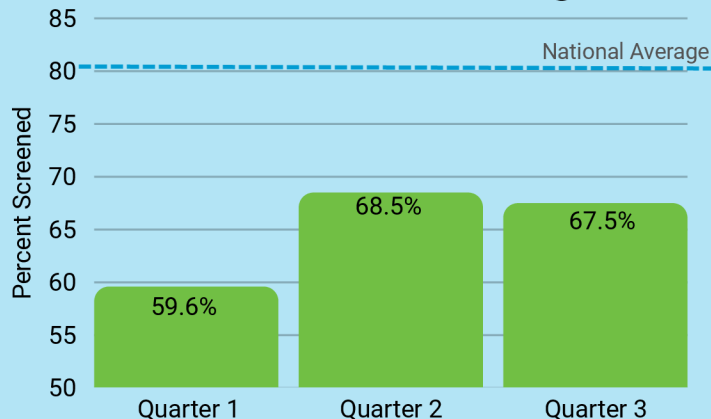

### Time to Services

### Screening for Social Determinants of Health

### Tobacco Use Screening

### Suicide Risk Assessment
